# CUSTOMER FOCUSED CUTTING SOLUTIONS

## OUR COMPANY

Plasma Cutting is a renowned and significant part of the Gehring CNC Plasmacut division which deals in various types of steel plates, sheets and other industrial related products. Established in 1994, our company expertise and quality of work is not just to fulfil our customer's requirements but to exceed expectations. Gehring's strength lies in its highly skilled people and well-equipped facilities.

### ■ Capacity

Gehring Plasmacut is fully equipped with the latest state-of-the-art machines and equipment. We employ skilled, technical and qualified machine operators and draughtsmen. Over the years we have developed many systems and processes to make sure we move forward with the times. Our company has strengths that allow us to maintain quality in fulfilling briefs for service and product whilst maintaining good customer relations and lead time flexibility on all work.
